
	Joint Meeting 8 th Meeting of the ssbii Network	Special Interest Group Meeting 37 - CELSITE	
Friday 1 st September 2006 University of Liverpool			

PROGRAMME

09:00	Registration opens, Tea/Coffee	
10:00	Welcome	
10:05	<i>Improved interface biocompatibility by targeted surface modifications</i>	Doris Klee RWTH Aachen
10:40	<i>Imaging the interaction of pathogenic mycobacteria with host macrophages</i>	Jean Pieters Biozentrum Basel
11:15	Tea/Coffee	
11:30	<i>Biologically inspired engineering of nanomaterials</i>	Molly Stevens Imperial College London
12:05	<i>Label-free spectroscopy of model biological membranes</i>	Mischa Bonn FOM-AMOLF Amsterdam
12:40	Lunch and Poster Session	
14:15	<i>Organised assembly of biomolecules at surfaces</i>	Rasmita Raval University of Liverpool
14:50	<i>Protein-mineral interactions and controlling skeletal crystal growth</i>	Jennifer Kirkham University of Leeds
15:25	<i>Nanoscale surface topography to control cellular interactions</i>	Rachel Williams University of Liverpool
16:00	Close of meeting
